PRESS RELEASE NO. 005 – 2016
May 12, 2016

District Court of the Virgin Islands Launches eJuror

The District Court of the Virgin Islands has launched eJuror, a new feature within the Court's Jury Management System which allows potential jurors to complete their juror questionnaires online.

Juror participants can now conveniently complete their online questionnaire at www.vid.uscourts.gov/jury-info, and will receive an email notification confirming receipt of the completed questionnaire. This component will reduce the time it takes to process a juror questionnaire, reduce the use and dissemination of paper, and improve data reliability.

In addition, the eJuror online program will also allow jurors who have been summoned for jury service to update personal information and verify their next jury appearance date.

This is a major step towards the Court's goals of capitalizing on technology and making services more efficient and accessible to the public. The Court is very pleased to add this new feature to our Jury Management System as we seek to achieve a more integrated system with its attendant benefits for all users. While potential jurors may continue to submit their questionnaires by mail, the Court encourages the use of this improvement in technology.
